MATERIAL SAFETY DATA SHEET

Product Trade Name: TegraTite

Revision Date: 10-Mar-2009

1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Trade Name: TegraTite
Synonyms: None
Chemical Family: Mineral
Manufacturer/Supplier: TegraSeal Products, LLC
9231 Penn Avenue S, Suite 2A
Bloomington, MN 55431
Telephone: (952) 888-1816
Fax: (952) 888-1786
Emergency Telephone: (508) 816-2168

2. COMPOSITION/INFORMATION ON INGREDIENTS

3. HAZARDS IDENTIFICATION

Emergency Overview
Gray. Not applicable under normal conditions of use. Generally not required under normal conditions of use.

Acute Potential Health Effects/ Routes of Entry
Inhalation: Not applicable under normal conditions of use.
Eyes: Not applicable under normal conditions of use.
Ingestion: Not applicable under normal conditions of use.
Skin: May cause mild irritation.

Aggravated Medical Conditions
Pre-existing eye, skin and respiratory disorders may be aggravated by exposure.

Chronic Health Effects
This product contains granular materials which may cause mechanical skin, eye or respiratory irritation.
Inhalation of crystalline silica (quartz) can cause cancer based on animal data, and IARC concludes sufficient evidence in humans (Group 1). Prolonged and repeated overexposure to free crystalline silica dust above the TLV level may cause scarring of the lungs with cough and shortness of breath. A delayed lung injury, silicosis may result from breathing free silica.

Target Organs: Skin, Eye, Lung.

### 4. FIRST AID MEASURES

Get immediate medical attention for any significant overexposure.

**Inhalation:** Generally not required under normal conditions of use.

**Eye contact:** Generally not required under normal conditions of use.

**Skin contact:** Clean area of contact thoroughly using soap and water. If irritation, rash or other disorders develop, get medical attention immediately.

**Ingestion:** Not applicable under normal conditions of use.

Notes to physician: Not applicable.

### 5. FIRE FIGHTING MEASURES

- **Flash Point/Range (F):** Not Determined
- **Flash Point/Range (C):** Not Determined
- **Flash Point Method:** Not Determined
- **Autoignition Temperature (F):** Not Determined
- **Autoignition Temperature (C):** Not Determined
- **Flammability Limits in Air - Lower (%):** Not Determined
- **Flammability Limits in Air - Upper (%):** Not Determined

**Fire Extinguishing Media**

All standard firefighting media.

**Special Exposure Hazards**

Not applicable.

**Special Protective Equipment for Fire-Fighters**

Not applicable.

**NFPA Ratings:** Health 0, Flammability 0, Reactivity 0

**HMIS Ratings:** Health 0*, Flammability 0, Reactivity 0

### 6. ACCIDENTAL RELEASE MEASURES

- **Personal Precautionary Measures**  Use appropriate protective equipment. Avoid creating and breathing dust.

- **Environmental Precautionary Measures**  None known.

Scrape up and transfer to appropriate container for disposal.

**Procedure for Cleaning / Absorption**

Collect using dustless method and hold for appropriate disposal. Consider possible toxic or fire hazards associated with contaminating substances and use appropriate methods for collection, storage and disposal.
7. HANDLING AND STORAGE

Handling Precautions
This product contains quartz, cristobalite, and/or tridymite which may become airborne without a visible cloud. Avoid breathing dust. Avoid creating dusty conditions. Use only with adequate ventilation to keep exposure below recommended exposure limits. Wear a NIOSH certified, European Standard En 149, or equivalent respirator when using this product. Material is slippery when wet.

Storage Information
Use good housekeeping in storage and work areas to prevent accumulation of dust. Close container when not in use. Do not reuse empty container.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls
Use approved industrial ventilation and local exhaust as required to maintain exposures below applicable exposure limits listed in Section 2.

Respiratory Protection
Wear a NIOSH certified, European Standard EN 149, or equivalent respirator when using this product.

Hand Protection
Normal work gloves.

Skin Protection
Wear clothing appropriate for the work environment. Dusty clothing should be laundered before reuse. Use precautionary measures to avoid creating dust when removing or laundering clothing.

Eye Protection
Wear safety glasses or goggles to protect against exposure.

Other Precautions
None known.

11. TOXICOLOGICAL INFORMATION

<table>
<thead>
<tr>
<th>Route of Exposure</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Inhalation</td>
<td>Eye or skin contact, inhalation. Inhaled crystalline silica in the form of quartz or cristobalite from occupational sources is carcinogenic to humans (IARC, Group 1). There is sufficient evidence in experimental animals for the carcinogenicity of tridymite (IARC, Group 2A). Breathing silica dust may cause irritation of the nose, throat, and respiratory passages. Breathing silica dust may not cause noticeable injury or illness even though permanent lung damage may be occurring. Inhalation of dust may also have serious chronic health effects (See “Chronic Effects/Carcinogenicity” subsection below).</td>
</tr>

<tr>
<td>Aggravated Medical Conditions</td>
<td>Individuals with respiratory disease, including but not limited to asthma and bronchitis, or subject to eye irritation, should not be exposed to quartz dust.</td>
</tr>
</tbody>
</table>
Chronic Effects/ 
Carcinogenicity

Silicosis: Excessive inhalation of respirable crystalline silica dust may cause a progressive, disabling, and sometimes-fatal lung disease called silicosis. Symptoms include cough, shortness of breath, wheezing, non-specific chest illness, and reduced pulmonary function. This disease is exacerbated by smoking. Individuals with silicosis are predisposed to develop tuberculosis.

Cancer Status: The International Agency for Research on Cancer (IARC) has determined that crystalline silica inhaled in the form of quartz or cristobalite from occupational sources can cause lung cancer in humans (Group 1 - carcinogenic to humans) and has determined that there is sufficient evidence in experimental animals for the carcinogenicity of tridymite (Group 2A - possible carcinogen to humans). Refer to IARC Monograph 68, Silica, Some Silicates and Organic Fibres (June 1997) in conjunction with the use of these minerals. The National Toxicology Program classifies respirable crystalline silica as "Known to be a human carcinogen". Refer to the 9th Report on Carcinogens (2000). The American Conference of Governmental Industrial Hygienists (ACGIH) classifies crystalline silica, quartz, as a suspected human carcinogen (A2).

There is some evidence that breathing respirable crystalline silica or the disease silicosis is associated with an increased incidence of significant disease endpoints such as scleroderma (an immune system disorder manifested by scarring of the lungs, skin, and other internal organs) and kidney disease.

Other Information

For further information consult "Adverse Effects of Crystalline Silica Exposure" published by the American Thoracic Society Medical Section of the American Lung Association, American Journal of Respiratory and Critical Care Medicine, Volume 155, pages 761-768 (1997).

Toxicity Tests

Oral Toxicity: Not determined
Dermal Toxicity: Not determined
Inhalation Toxicity: Not determined
Primary Irritation Effect: Not determined

Carcinogenicity

Refer to IARC Monograph 68, Silica, Some Silicates and Organic Fibres (June 1997).
Genotoxicity: Not determined
Reproductive / Developmental Toxicity: Not determined

12. ECOLOGICAL INFORMATION

Mobility (Water/Soil/Air) Not determined
Persistence/Degradability Not determined
Bio-accumulation Not Determined

Ecotoxicological Information

Acute Fish Toxicity: TLM96: 10000 ppm (Oncorhynchus mykiss)
Acute Crustaceans Toxicity: Not determined
13. DISPOSAL CONSIDERATIONS

Disposal Method: Bury in a licensed landfill according to federal, state, and local regulations.

Contaminated Packaging: Follow all applicable national or local regulations.

Disposal Method: As purchased, this product, when discarded, is not a listed or characteristic hazardous waste according to Federal regulations (40 CFR 261). Check local, regional, state or provincial regulations for applicable requirements for disposal. Any processing, using, alteration or chemical additions to the product, as purchased, may alter the disposal requirements. Under Federal regulations, it is the generator's responsibility to determine if a waste is a hazardous waste. Empty containers may retain product residue. Do not reuse.

14. TRANSPORT INFORMATION

Land Transportation

DOT
Not restricted

Canadian TDG
Not restricted

ADR Not restricted

Air Transportation

ICAO/IATA Not restricted

Sea Transportation

IMDG Not restricted

Other Shipping Information

Labels: None

15. REGULATORY INFORMATION

US Regulations

US TSCA Inventory All components listed on inventory.

EPA SARA Title III Extremely Hazardous Substances Not applicable

EPA SARA (311,312) Hazard Acute Health Hazard
Class

Chronic Health Hazard

EPA SARA (313) Chemicals
This product does not contain a toxic chemical for routine annual "Toxic Chemical Release Reporting" under Section 313 (40 CFR 372).

EPA CERCLA/Superfund Reportable Spill Quantity
Not applicable.

EPA RCRA Hazardous Waste Classification
If product becomes a waste, it does NOT meet the criteria of a hazardous waste as defined by the US EPA.

California Proposition 65
The California Proposition 65 regulations apply to this product.

MA Right-to-Know Law
One or more components listed.

NJ Right-to-Know Law
One or more components listed.

PA Right-to-Know Law
One or more components listed.

Canadian Regulations

Canadian DSL Inventory
All components listed on inventory.

WHMIS Hazard Class
Crystalline silica

North American Inventories:
All components are listed or exempt from the TSCA inventory.
This product or its components are listed on, or exempt from the Canadian Domestic Substances List.

U.S. Federal Regulations:

SARA 313 Components : None present or none present in regulated quantities.

SARA 311/312 Hazards : Acute Health Hazard

OSHA Hazardous Components :

Bentonite 1302-78-9
Crystalline Silica (Quartz)/ Silica Sand 14808-60-7
Silica (crystalline-cristobalite) 14464-46-1
Silica (crystalline-tridymite) 15468-32-3

OSHA Status: Considered: irritant hazardous based on the following criteria:

OSHA Flammability : Not Regulated

Regulatory VOC (less water and exempt solvent) 0 g/l

VOC Method 310 : 0 %

Chemical is listed as an IARC, NTP, OSHA, or ACGIH Carcinogen:
Crystalline Silica (Quartz)/ Silica Sand 14808-60-7
Silica (crystalline-cristobalite) 14464-46-1
Silica (crystalline-tridymite) 15468-32-3

U.S. State Regulations:
MASS RTK Components: Crystalline Silica (Quartz)/ Silica Sand 14808-60-7
Penn RTK Components: Bentonite 1302-78-9
Water 7732-18-5
n-Butyl acrylate resin 9003-49-0
Crystalline Silica (Quartz)/ Silica Sand 14808-60-7

NJ RTK Components: Bentonite 1302-78-9
Water 7732-18-5
n-Butyl acrylate resin 9003-49-0
Crystalline Silica (Quartz)/ Silica Sand 14808-60-7
Silica (crystalline-tridymite) 15468-32-3
Silica (crystalline-cristobalite) 14464-46-1

Chemicals known to the State of California to cause cancer birth defects and/or other reproductive harm:
14808-60-7 Crystalline Silica (Quartz)/ Silica Sand
14464-46-1 Silica (crystalline-cristobalite)
15468-32-3 Silica (crystalline-tridymite)

### 16. OTHER INFORMATION

**Additional Information**
For additional information on the use of this product, contact your local TegraSeal representative.

For questions about the Material Safety Data Sheet for this or other TegraSeal products, contact 952-888-1816.

**HMIS Rating:**
- **Health:**
  - 1 = Minimum
  - 2 = Moderate
  - 3 = Serious
  - 4 = Severe
- **Flammability:**
  - 0 = Minimum
  - 1 = Slight
- **Reactivity:**
